We are partnering with Kris Fulkerson from Coping 4 Kids ~ Coping 4 Life to offer the following parent workshops in the school cafeteria:

March 18 from 6:30-7:30 Kids and Technology

Kids today relate to each other and the world markedly different than their parents' generation. In fact, while technology was a novelty just twenty years ago, today's children are growing up in a social world driven by technology. This presentation will discuss kids' typical uses of technology from a social perspective, as well as parental suggestions for guiding our kids in this technologically driven world. Parents will leave this presentation with a general understanding of the risk factors associated with technology use by kids, tips on how to manage kids' technology use, and behaviors that are typical of kids social behaviors today.

BIRTH TO FIVE SCREENING CLINIC

A free screening clinic for children from birth to 5 years of age is being offered at the Germantown School District on March 14, 2019 from 1:00-7:00pm. The clinic includes checks of infant/toddler language development, motor coordination and social skills. Preschool-aged children are also screened for pre-academic skills, vision and hearing. The screenings take approximately 30 minutes, and parents are provided with immediate feedback about their children's performance, as well as information about services for which their children may qualify. Early intervention, speech/language therapy, Pre-kindergarten, Head Start, and Early Childhood special education programs are all available free of charge to eligible children. Participation in the spring screening clinics is an excellent means to enroll children in school district preschool classes and Head Start for next fall when there may be waiting lists for these programs. **CALL THE SCHOOL AT 618-523-4253 TO SET UP AN APPOINTMENT.**
