Physical Fitness Testing is over, and just in the nick of time. It seems that cold weather is just around the corner. Students in P.E. will begin to play more sports inside due to inclement weather. Health Tip of the Week: Don't Eat or Drink too Much of One Thing

You don't have to give up foods like hamburgers, french fries and ice cream to eat healthfully. You just have to be smart about how often and how much of them you eat. Your body needs nutrients like protein, carbohydrates, fat and many different vitamins and minerals such as vitamins C and A, iron and calcium from a variety of foods.

Eating fruit, yogurt, and peanut butter and checking out the fat & sugar content on food labels will help you to stay & feel healthy. Remember...this includes soda & sugary drinks. They packs on the pounds!
