

## **Superintendent's Newsletter**

**September, 2009**

Each year we begin the school year with great anticipation! Children are excited; teachers and staff are excited; and, administrators are excited. What will this year bring? How much will each child increase their reading achievement? How much will each learn in Math? Or Science? Or Social Studies? English and Writing?

The keys to the success of each student include you, your child, his/her teacher and every staff member at Germantown SD. Continue to be engaged in your child's learning; communicate regularly with your child's teachers (we will do the same). Ask questions and provide information that only a parent can provide. Expect great achievement; it usually leads to great achievement.

One other thing of lesser note: If you have topics and/or questions you would like answered of a more general nature regarding the school and its operation; please contact me at [lweber@clinton.k12.il.us](mailto:lweber@clinton.k12.il.us) or 523-4253. Better yet, stop in to see me and ask your question or make your comment in person. I look forward to another great year at Germantown Elementary.
